## Small Vessel Disease

**About Heart Disease**  
**Angina Pectoris**  
**Coronary Artery Disease**  
**Diffuse Distal Disease**  
**Small Vessel Disease**  
**Diabetes and Angina**

Over 50% of the patients treated with TMR in the clinical trials were diabet who frequently suffer from a condition referred to as SMALL VESSEL DISEASE. When the area of ischemia related to the angina symptoms is related to small vessel disease, traditional revascularization methods may not be an option for these patients.
